

ISA Board Recruitment Research Brief Combined Top 50

Best 50 distinct prospects from both research lists | Prepared for Larry Clinton and 1631 Digital

This is a single shortlist of 50 distinct candidates drawn from the original policy and media prospect file and the webinar registrant file. It includes 37 webinar candidates and 13 original-list candidates. Edna Conway and Max Everett appear once, using the later webinar assessment. The order follows the documented board recruitment opportunity scores, then the source rank for ties. Each entry gives the evidence and a concise reason for ISA to consider outreach.

Selection method and cautions

Both source reports use policy 30%, frameworks 25%, board influence 20%, media 15%, and ISA engagement 10%. Larry's qualitative screen adds seniority comparable to ISA board members, personal relevance to ISA's policy and governance agenda, and visible testimony, speeches, board advising or media. The source research has uneven depth, so the ranked score is a review order, not a finding of willingness or eligibility. Published ISA board members were excluded in the source reports; recheck the roster and internal contact history before invitation. Verified LinkedIn header snapshots appear where available; unmatched account links retain an initials preview with an explicit note.

Larry's attached July 2026 roster contains senior CISOs and cyber executives across major sectors. His board evaluation slides and 2025 highlights emphasize policy advocacy, the NACD handbook, meetings with government leaders and thought leadership; the annual evaluation notes the time commitment. These guide the individual recruitment cases below while preserving the prior weighted scores.

Screening chart

Criterion	Weight	Evidence required
Policy relevance and testimony	30%	Policy authorship, government role, formal testimony or public-private cyber coordination
Frameworks and director guidance	25%	Authored standards, risk frameworks, NACD-style oversight guidance or substantive practice work
Board advising and peer fit	20%	Documented board or advisory contribution; senior executive scope comparable to ISA directors
Speeches and media presence	15%	Attributable speaking, interviews, articles or other public thought leadership
ISA engagement	10%	Verified ISA activity or relationship; registration alone receives limited credit

Larry's additional decision gate: personal interest in ISA's agenda, willingness to contribute time, and no current ISA board seat. These are verified in conversation and roster review, not inferred from a score.

Combined shortlist

01 Kemba Walden

Paladin Global Institute | Outside Board Director President, Paladin Global Institute Former Acting National Cyber Director | Opportunity 8.9/10

LinkedIn profile header captured 29 September 2026 • use the link below for the live account.

Documented record. Former acting National Cyber Director; congressional testimony and Paladin cyber/AI policy work; Endgame board role. The board screen notes Endgame Systems board; government security committee.

Recruitment case. Kemba Walden has evidence of policy influence, framework and standards work, board influence, public voice. The specific record above suggests a contribution to ISA's policy agenda on regulatory overlap, public-private cooperation and cost-benefit decisions; Paladin Global Institute would add a concrete executive vantage point. A webinar registration is a signal of exposure to ISA, not proof of commitment. Ask about interest in ISA's policy and governance agenda, available time and the current board term.

Criteria evidence. Policy 10.0; frameworks 9.0; board 8.0; media 9.0; ISA engagement 7.0.

Larry's fit screen. Comparable senior leadership role; testimony documented; board or advisory role indicated; linked public record.

02 Edna Conway

Living Security | Board Chair | Global Chief Security & Risk Officer @\$245B | Author | PE Advisor | AI, Cloud, Cybersecurity, & Supply Chain Resilience | Opportunity 8.7/10

LinkedIn profile header captured 29 September 2026 • use the link below for the live account.

Documented record. Carnegie scholar and EMC Advisors CEO; board/advisory service and public work on cyber policy and supply-chain resilience. The board screen notes Multiple enterprise/advisory boards; confirm details with candidate.

Recruitment case. Edna Conway has evidence of policy influence, framework and standards work, board influence, public voice. The specific record above suggests a contribution to ISA's policy agenda on regulatory overlap, public-private cooperation and cost-benefit decisions; Living Security would add a concrete executive vantage point. A webinar registration is a signal of exposure to ISA, not proof of commitment. Ask about interest in ISA's policy and governance agenda, available time and the current board term.

Criteria evidence. Policy 9.0; frameworks 8.0; board 8.0; media 9.0; ISA engagement 10.0.

Larry's fit screen. Comparable senior leadership role; board or advisory role indicated; linked public record.

03 Philip Niedermair

Modirum Gespi Defense Technologies | Chairman of the Advisory Board TAC, Special Advisor VIRSEC, Chair of the Advisory Board NCG National Cyber Group, Managing Partner Modirum Gespi Inc, Senior Advisor Cyberspace Solarium Commission | Opportunity 8.2/10

LinkedIn profile header captured 29 September 2026 • use the link below for the live account.

Documented record. Chair of TAC advisory board, advisor to Cyberspace Solarium Commission 2.0 and multiple cyber organizations. The board screen notes TAC advisory chair and other cyber boards.

Recruitment case. Philip Niedermair has evidence of policy influence, framework and standards work, board influence, public voice. The specific record above suggests a contribution to ISA's policy agenda on regulatory overlap, public-private cooperation and cost-benefit decisions; Modirum Gespi Defense Technologies would add a concrete executive vantage point. A webinar registration is a signal of exposure to ISA, not proof of commitment. Ask about interest in ISA's policy and governance agenda, available time and the current board term.

Criteria evidence. Policy 9.0; frameworks 7.0; board 10.0; media 7.0; ISA engagement 7.0.

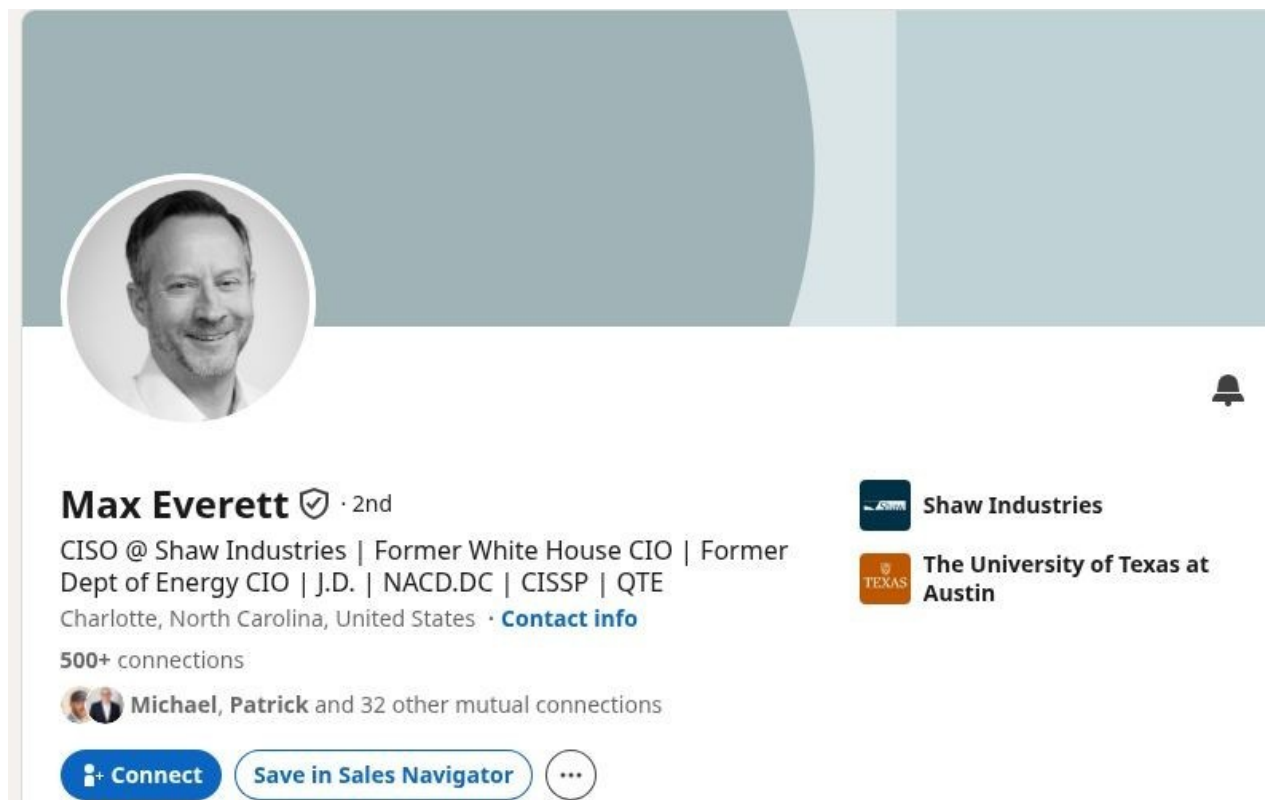

Larry's fit screen. Comparable senior leadership role; board or advisory role indicated; linked public record.

24 Bryan Vorndran

Microsoft | Vice President, Deputy Chief Information Security Officer | Opportunity 6.4/10

LinkedIn profile header captured 29 September 2026 • use the link below for the live account.

Documented record. Senate/FBI testimony plus recurring RSAC/SANS presence; the strongest direct public-policy record in the list.

Recruitment case. Bryan Vorndran brings documented policy engagement, framework or standards work, public communication to ISA's director-facing cyber-risk and policy work. The recorded policy or industry action is "Ahead of the Threat — Season 1, Episode 0 — FBI — 2024". The practical board contribution would be to bring a Microsoft perspective to ISA's regulatory harmonization and cost-benefit analysis, where members help shape policy, publish director guidance and meet government leaders. This is an outreach hypothesis: confirm personal interest in ISA's agenda and capacity to participate before treating it as board fit.

Criteria evidence. Policy 10.0; frameworks 8.3; board 0.0; media 8.8; ISA engagement 0.0.

Larry's fit screen. Comparable senior leadership role; testimony documented; linked public record.
