

Michael Brewer

Chief Information Security Officer
Neurocrine Biosciences

Public role source revisited. Employer/self sources and association/event biographies are distinguished; direct role acceptance is not established. **Current-role source**

Direct business email and telephone: not publicly verified.

Public professional route: named role biography. Personal LinkedIn URL remains unverified.

Source: www.klogixsecurity.com

Work base: San Diego area. Own interview refers to local San Diego peer group; exact current work base to confirm.

Recommendation and rationale

Reserve / second-group qualification. Enterprise biotech CISO and FAIR/community participation; limited direct commentary.

Research rank #34 - Sector qualification. Final research recommendation for this pass; ISA selection and outreach approval pending.

Company capacity and proposed benefit

Public biotechnology employer; FY2025 annual report available. **Source: www.neurocrine.com**

Proposed company benefit: Test Neurocrine's ability to connect security decisions to research and business priorities.

Proposed executive benefit: Contribute his business-storytelling and broad security-management experience.

What This Recruit Could Add to ISA

Develop a biotechnology security case spanning governance, response and AI accountability. **Source: www.klogixsecurity.com**

Handbook connection: Tool J 63-65; E 48-50. Proposed output and benefits require agreement. **Source: www.nacdonline.org**

Introduction and next decision

No named introducer established. ISA to designate an approved contact route; no private relationship inferred.

ISA to reconcile account status and route; then validate current remit, contribution, corporate payer and participation directly.

Policy history and board-selection fit

Policy evidence gap: Reviewed commentary supports an operating or governance perspective, but attributable testimony, formal policy input or a government advisory role has not been verified in this pass.

Current public roster; reviewed October 12, 2026 - Board of Directors. Health-ISAC lists Neurocrine enterprise CISO duties and FAIR SoCal chapter co-chair service. Source: health-isac.org

Practice/community participation; formal policy contribution is not verified.

Benchmark: ISA recommendations, current ISA board practitioner profile, operating authority, company capacity, attributable policy work, concrete contribution, and portfolio balance. Corporate directorship alone does not determine priority.

Qualification status and ownership

Requirement	Evidence and remaining confirmation
Current role	Public role support; recheck directly before contact; direct confirmation pending.
ISA membership	Unknown current company/account and designated-representative status. Public board absence does not establish nonmembership.
Eligibility	Operating practitioner fit supported by research. ISA acceptance and employer designation pending.
Board feedback / introducer	No named introducer established. Introduction completion: not confirmed.
Corporate sponsorship	Published annual dues \$75,000; corporate payer, budget approver and written authorization not confirmed.
Executive interest	Not directly confirmed. Published interest in cyber topics is not membership interest.
Time / participation	Four meetings yearly, including two in Washington, DC and two virtual, plus agreed preparation. Availability, travel and term commitment not confirmed.
ISA output and benefits	Person-specific hypotheses documented; prospect and employer acceptance not confirmed.
Portfolio	Industry/expertise rationale assessed. Work base and DC access require direct confirmation.

ISA public board / meeting baseline | Bylaws | Published sponsorship

1631 owns researched case and source accuracy; ISA owns current membership/eligibility/introducer decision; employer/prospect must confirm funding, interest, availability and proposed output.

Attributable commentary and evidence ledger

1 / 10 substantive sightings recorded. Depth target remains open; no biographies, awards or duplicate syndications added to fill the gap.

1. Profile: Michael Brewer, CISO, Neurocrine Biosciences

2025 | Original interview Source: www.klogixsecurity.com

Describes a broad security program spanning governance, incident response and a new AI-security remit.

Attribution / limitation: Not evidence of ISA interest or employer sponsorship.

ISA relevance: Management governance of AI and enterprise risk.

Published mentions and correspondence - not counted

December 2025 | Feats of Strength - December 2025, Michael Brewer profile Source: www.klogixsecurity.com

The profile discusses business communication, a reporting culture and controls automation; it supplies the original magazine context for the already recorded Brewer interview.

Printed pages 12-13. Same underlying K logix interview as the existing web profile; no extra sighting for the PDF edition.
