

#24

TJ Bean

Chief Information Security Officer
HCA Healthcare

Public role source revisited. Employer/self sources and association/event biographies are distinguished; direct role acceptance is not established. **Current-role source**

Direct business email and telephone: not publicly verified.

Public professional route: named role biography. Personal LinkedIn URL remains unverified.

Source: health-isac.org

Work base: Not established from reviewed sources. Actual work base, DC access and willingness require direct confirmation.

Recommendation and rationale

Reserve / second-group qualification. HCA CISO, Health-ISAC and MITRE advisory participation; practical contribution stronger than media volume.

Research rank #24 - Sector qualification. Final research recommendation for this pass; ISA selection and outreach approval pending.

Company capacity and proposed benefit

Operating hospital company; FY2025 annual report available. **Source: investor.hcahealthcare.com**

Proposed company benefit: Test HCA's material-threat coverage and resilience evidence.

Proposed executive benefit: Contribute practical consortium research and intelligence lessons.

What This Recruit Could Add to ISA

Translate threat-informed collaboration into scenario coverage and executive investment choices. **Source: ctid.mitre.org**

Handbook connection: Tool K 66-68; B 37-40. Proposed output and benefits require agreement. **Source: www.nacdonline.org**

Introduction and next decision

No named introducer established. ISA to designate an approved contact route; no private relationship inferred.

ISA to reconcile account status and route; then validate current remit, contribution, corporate payer and participation directly.

Policy history and board-selection fit

Policy evidence gap: Reviewed commentary supports an operating or governance perspective, but attributable testimony, formal policy input or a government advisory role has not been verified in this pass.

Current public roster; reviewed October 12, 2026 - Advisory Council | Center for Threat-Informed Defense. MITRE CTID lists Bean as HCA CISO and advisory-council member, with strategic guidance and executive advocacy duties. [Source: ctid.mitre.org](https://ctid.mitre.org)

Research/practice leadership, not proof of legislative influence; his prior attributable MITRE remarks remain separately available.

Benchmark: ISA recommendations, current ISA board practitioner profile, operating authority, company capacity, attributable policy work, concrete contribution, and portfolio balance. Corporate directorship alone does not determine priority.

Qualification status and ownership

Requirement	Evidence and remaining confirmation
Current role	Public role support; recheck directly before contact; direct confirmation pending.
ISA membership	Unknown current company/account and designated-representative status. Public board absence does not establish nonmembership.
Eligibility	Operating practitioner fit supported by research. ISA acceptance and employer designation pending.
Board feedback / introducer	No named introducer established. Introduction completion: not confirmed.
Corporate sponsorship	Published annual dues \$75,000; corporate payer, budget approver and written authorization not confirmed.
Executive interest	Not directly confirmed. Published interest in cyber topics is not membership interest.
Time / participation	Four meetings yearly, including two in Washington, DC and two virtual, plus agreed preparation. Availability, travel and term commitment not confirmed.
ISA output and benefits	Person-specific hypotheses documented; prospect and employer acceptance not confirmed.
Portfolio	Industry/expertise rationale assessed. Work base and DC access require direct confirmation.

[ISA public board / meeting baseline](#) | [Bylaws](#) | [Published sponsorship](#)

1631 owns researched case and source accuracy; ISA owns current membership/eligibility/introducer decision; employer/prospect must confirm funding, interest, availability and proposed output.

Image and contact provenance

Portrait: Name-matched image on named public biography. [Source: health-isac.org](https://health-isac.org)

Company mark: Exact named source asset; manually selected [Source: health-isac.org](https://health-isac.org)

Attributable commentary and evidence ledger

2 / 10 substantive sightings recorded. Depth target remains open; no biographies, awards or duplicate syndications added to fill the gap.

1.

2023 | Research-partner report with attributed statement [Source: ctid.mitre.org](https://ctid.mitre.org)

Explains that threat-informed research and industry collaboration help HCA build practical methods and optimize intelligence capabilities.

Attribution / limitation: Only the statement attributed to TJ Bean is used; the neighboring Lloyds statement belongs to another person.

ISA relevance: Peer collaboration as a concrete management benefit.

2. Cybersecurity Countdown - February 28, 2025-Cybersecurity Countdown

2025-02-28 | Original podcast episode description [Source: music.amazon.com](https://music.amazon.com)

Explains cryptocurrency theft and the alleged North Korean alignment of hackers in the Bybit case.

Attribution / limitation: Published episode summary reviewed; no claim to have reviewed its audio transcript.

ISA relevance: Management awareness of financially motivated and state-linked threats.

Events and topic interest - not counted

Organizer listings and short reactions are research leads. They do not establish delivered remarks or ISA interest.

Upcoming 2026-10-15, 1 PM Eastern | AI in Healthcare: Security That Can Stand Up in Court [Source: thisweekhealth.com](https://thisweekhealth.com)

This Week Health lists Bean for a webinar about AI authorization, workload isolation and reconstructable audit trails.

Limit: Future event as of October 13; no completed participation or remarks. Not counted.
